## MY LOVING SCHOOL

I have completed my education from Shramik Vidyalaya Jogeshwari (E). I passed S.S.C. from same school achieving 68% in year of March 2003. For further education I entered in the technical field and I got admission in Govt. polytechnic at Bandra (E), Mumbai 51, in the field of civil Engineering. I have completed third year with 79% Marks.

Shramik Vidyalaya has been really developing the students in today's advance and competitive world. The school has provided not only educational training but also value based learning in the secondary level. Shramik Vidyalaya has received the educational award from Govt. of Maharashtra as an 'IDEAL SCHOOL'

The management of the school always gives its wholehearted support to develop it's staffs. It is working very hard to develop and increase the status of education. They are playing prominent role to mould the personality of the students and enable them to stand on their own feet.

At present, I am completing my third year degree in the Civil Engineer from M.G.M. college Kalamboli, Navi Mumbai.

It's my kind and humble request to one and all to help our IDEAL SCHOOL with open hands.
