BEGINNING OF AN ERA

This story began 26 years back when Jogeshwari was surrounded with mountains & forests. Educational institutes were less in number. During that period, blessed with Goddess Saraswati, One sage appeared whose mission was to do something for children from slums.

Being Humble, he believed in simple living and high thinking. He could read people like a book. He was as if heavenly blessed with clear thinking and assisted by good wife. His primary concern was to open a school for children, where in he would impart the education.

At last in the year 1983 with 45 children he opened his dream school in Meghwadi. Both Mr. & Mrs. Chavan put in their efforts to the fullest to shape the school & this culminated into the current growth of the school. The admissions increased with leaps, & bounds, attracting the attention of the parents. The school imbibed the qualities of cleanliness & discipline along with punctuality.

Every student was shaped by the institute, instilling various competencies requires to modern cut throat competition.

Whenever I see my child entering the school premises, my heart fills with emotions & pride to say that this is the right choice, My child is in safe & sound hands, truly I feel that Goddess Saraswati, exists in this institute.

Gradually our institute prospered not only in the area of academic but also in sports, cultural, extra - curricular, activities but we lost the visionary, the man himself an institute, the Guru of the Gurukul our most respected father of the school Late Y.B.Chavan.

The time has come to reconcile ourselves and once again follow what sir had believed i.e. "Strength lives in unity" we all parents promise that we shall stand by our chairman Smt. Smitaji Chavan in all conditions. Before ending the fact remains that we all dreamt of huge building of our institute & we shall strive day & night to transalte this into reality.
